Native
- Russian
Fluent
- English
Professional working

I turn ideas into polished, production-grade apps across Android, Kotlin Multiplatform and the web — *shipping ideas* from first commit to a published, maintained release.

Results-driven Android & Kotlin Multiplatform developer with 6+ years of commercial experience shipping 20+ production apps to Google Play and the App Store. Deep expertise in Kotlin, Jetpack Compose and Compose Multiplatform, complemented by full-stack web work in React, NestJS and TypeScript — always with a focus on clean architecture, performance and cross-platform consistency.

EXPERIENCE

Mobile Developer

Salary

2024 — 2025

Ashgabat, Turkmenistan

Built the Salary online supermarket with Kotlin & Compose Multiplatform — shared UI across Android and iOS with native maps, video playback and offline-first caching. Featured in the official JetBrains Compose Multiplatform case studies.

Mobile Developer

YTM

2023 — 2025

Ashgabat, Turkmenistan

Delivered YTM GPS fleet-tracking across 2,600 device types — online tracking, geofencing, fuel monitoring and route recording — with Compose Multiplatform sharing maps and networking across Android and iOS.

Web Development Mentor

Bootcamp Turkmenistan

2022 — 2023

Ashgabat, Turkmenistan

Mentored students in modern web development and built the official Bootcamp Turkmenistan website.

Mobile Developer

Pikir

2021 — 2022

Ashgabat, Turkmenistan

Developed native Android applications, shipping production releases to Google Play.

Full-Stack Developer

Geekspace Turkmenistan

2020 — 2023

Ashgabat, Turkmenistan

Built end-to-end products across mobile, web and backend — Android apps, React admin panels and Express/PostgreSQL APIs — for marketplaces, EdTech and traffic/maps platforms.

SELECTED PROJECTS

Yedu Taxi — AI Ride-Hailing

MOBILE · AI

Smart taxi platform with AI on board — book a ride by tapping, talking, or sending the EVA assistant a photo. Driver & rider apps shipped on Android and iOS.

Balary — Online Supermarket

KMP · E-COMMERCE

Compose Multiplatform supermarket with 50+ categories, shared UI across Android/iOS, native maps (MapLibre + Nominatim), video player (JNI + FFmpeg) and Room KMP offline cache. Featured in JetBrains' KMP showcase.

YTM GPS — Fleet Tracking

KMP · GPS

GPS-tracking solution supporting 2,600 device types: geofencing, fuel monitoring, route recording and incident reporting, built with Compose Multiplatform.

Kiosk — Self-Service Payment Terminal

FULL-STACK · KMP

Self-service payment kiosk with bill acceptor, touch UI and receipt printing. Compose Multiplatform client on Ubuntu over serial comms, with a NestJS + PostgreSQL backend for secure payments and transaction logging.

Tex Logistic — Freight Platform

ANDROID · LOGISTICS

Modular, fully-localised Jetpack Compose logistics app — order placement to real-time tracking and delivery confirmation, built on clean architecture with a companion open-source GPS-sender app.

Operator — Call-Center Suite

ANDROID · BACKEND · WEB

Full caller-ID ecosystem: Android operator & courier apps, React admin panel, Express/PostgreSQL backend and a C# PC installer — with offline/online sync and call screening on Android 10+.

Kamnyc — Student Super-App

ANDROID · EDTECH

The #1 student app — class schedules, a social feed, courses, jobs and exclusive student deals, all in one place.

OPEN-SOURCE LIBRARIES

- yedu-kmp-gps-listener

Headless KMP background GPS for Android & iOS · klibs.io

- tm-chat

Room-based group & 1-to-1 chat system · npm

- turkmen-converter

Turkmen letter converter & typo generator · npm

- blurhash-generator

BlurHash placeholder hash generator · npm

- turkmen-pelias-model

Pelias geocoder data model for Turkmenistan · npm

- turkmen-pelias-query

Elasticsearch geospatial Pelias queries · npm

AWARDS & CERTIFICATIONS

- Google I/O Extended Ashgabat

Speaker badge — Android & KMP, 2025

- UNDP & GDG

Digital Goal Learning Office appreciation

- USAID Startup Ecosystem Program

Completion, 2021

- GeekSpace "Startup 2020"

Outstanding work award

- Türkmenaragatnaşyk

Diplomas II & III degree — innovation

- JetBrains KMP Showcase

Featured case study — Balary
